FE-Trank

Economical milk replacer for rapid development of the forestomach system. Recommended from the 5th week after birth until weaning

Main applications Kalb

- Group phase

Product features:

- dietary components like linseed, carob meal
- whey powder
- not suitable for automatic feeders

Product advantages:

- stabilizes the intestinal flora
- enzyme training
- early adaptation to more economical forages
- diarrhea protection through reduction of germ pressure
- rapid development of the rumen
- suitable for multi-phase-feeding as an economical second-phase milk replacer

Your benefits:

- economical and reliable rearing
- healthy and vital calves
- easy and reliable application
- economical alternative to white milk replacers

FE-Trank

Economical milk replacer for rapid development of the forestomach system. Recommended from the 5th week after birth until weaning

Product features:
- dietary components like linseed, carob meal
- whey powder
- not suitable for automatic feeders

Application recommendation:
150g/l water corresponds to 130g/l milk replacer

Preparing the milk replacer in the bucket / milk taxi:
1. Put 1/3 of the required water amount with 40-45°C into the container (bucket, tank).
2. While stirring add the milk replacer – 130g/l milk replacer.
3. Add the remaining water (2/3). The drinking temperature of the complete milk replacer should be at 40°C.

Weaning can begin as soon as the calf consumes 1.5 kg of concentrated feed.

Please pay attention to the following:
1. Clean and disinfect the boxes of the calves.
2. Use JOSERA Desan to decrease pathogenic germs.
3. Administer colostrum together with JOSERA Colostrin as soon as possible after birth. Approximately 4-6 l during the first 12 hours of life.
4. Clean equipment thoroughly.
5. Offer fresh water and JOSERA Kälberkost from the second day on.

Instructions for proper use:
This mixed feed must only be given to animals younger than 6 months.

Composition:
Linseed expeller | whey powder | soy protein concentrate | whey permeate powder | pre-gelatinised wheat flour | vegetable fat, refined (palm,cocos) | carob meal | whey powder, partly desugared

Analytical constituents:

21.00 %	crude protein	12.50 %	crude fat
3.50 %	crude fibre	8.70 %	crude ash
1.50 %	lysine	0.95 %	calcium
0.75 %	phosphorus	0.45 %	sodium

Nutritional additives per 1 kg:

25000.0 I.E.	vitamin A (3a672a)
5000.0 I.E.	vitamin D3 (3a671)
100.0 mg	vitamin E/all-rac-alpha-tocopheryl acetate (3a700)
250.0 mg	vitamin C (3a300)
16.0 mg	vitamin B1 (3a821)
8.0 mg	vitamin B2 (3a825ii)
6.0 mg	vitamin B6/ pyridoxine hydrochloride (3a831)
50.0 mg	niacinamide (3a315)
2.0 mg	vitamin K3 (3a710)
25.0 mg	calcium D-pantothenate (3a841)
1.0 mg	folic acid (3a316)
300.0 mg	choline chloride (3a890)
200.0 mcg	biotin (3a880ii)
80.0 mg	zinc (zinc chelate of glycine hydrate (solid)) (3b607)
70.0 mg	manganese (manganese chelate of glycine hydrate) (3b506)
100.0 mg	iron (iron(II) chelate of glycine hydrate) (3b108)
4.0 mg	copper (copper(II) chelate of glycine hydrate (solid)) (3b413)
1.0 mg	iodine (calcium iodate anhydrous) (3b202)
0.4 mg	selenium (sodium selenite) (3b801)

Zootechnical additives per 1 kg:
2.00 x10^9 KBE lactic-acid bacteria Enterococcus lactis NCIMB 10415 (4b1705)

Note: The best before date requires hygienic, cool, and dry storage. Josera does not take responsibility for incorrect storage nor improper use.
