Lick stone with trace elements for cattle, horses, sheep, goats and deer

Product features:
- high quality stone- or sea salt
- trace elements
- certified for organic farming in accordance to (EU) 2018/848 and (EU) 2021/1165
- solid and stable form
- without copper

Application recommendation:
Supplementation of the ration in the feed trough or lick stone holder for cattle, horses, sheep, goats, and deer.

Feeding recommendation:
for free intake up to 1% of daily feed ration.

Instructions for proper use:
This complementary feed has a higher content of trace elements than complete feed. Therefore it must be given only in a quantity of 1% of the daily ration for cattle, horses, sheep, goats and deer.

10 g/kg TM

This product can be used for organic production acc. regulation (EU) 2018/848 and (EU) 2021/1165. It contains:
· 0,0 % (dry matter) of feed materials from the organic production method
· 0,0 % (dry matter) of feed materials from products in conversion to organic farming
· 100,0% (dry matter) of feed materials not covered by mentioned points
· 0,0 % (dry matter) of animal feed of agricultural origin.
Produces according to the regulations of Bioland e.V. Controlled by DE-ÖKO-006-control site.

Composition:
sodium chloride | calcium carbonate | magnesium oxide

Analytical constituents:

0,30 %	calcium	38,00 %	sodium
0,20 %	magnesium		

Note: Minimum shelf life requires a correct and appropriate storage. In particular a hygienic, cool and dry storage is needed. Without responsibility in case of incorrect storage and application.
