Josera.
we care, you grow

# Rimi

## Mineral feed for cattle

### Main applications

- young cattle rearing
- fattening cattle

**Product features:**

- with phosphorus
- trace elements 25% as highly available glycine chelate
- Selen-Protect® (rumen protected)
- B-vitamins

**Product advantages:**

- optimal supply with minerals and vitamins
- especially suitable for rations with soy extraction meal
- all-in-one mineral feed
- optimal supply for the fattening cattle due to the 100 for 1000 feeding recommendation
- optimal supply for the young cattle due to the 10 g/kg DM consumption recommendation

**Your benefits:**

- modern, future oriented feed concept
- easy, needs-based feeding through an all-in-one mineral feed
- economic success through healthy and calm animals with high daily weight gains

# Rimi

## Mineral feed for cattle

**Product features:**
- with phosphorus
- trace elements 25% as highly available glycine chelate
- Selen-Protect® (rumen protected)
- B-vitamins

**Application recommendation:**
Rimi is used in feed rations for cattle fattening with a high proportion of corn silage and cereals as well as protein supplementation with soybean meal.
- per fattening 120-160g
- intermediate fattening 160-200g
- final fattening 150-120g

**Feeding recommendation: JOSERA feeding concept 100 for 1000**
The mineral consumption of cattle is essentially determined by the amount of daily weight gain.
Based on this, the JOSERA feeding concept for fattening cattle ‚100 for 1000' has been developed, meaning that 100g of mineral feed is necessary for 1000g of daily weight gain.
At 1600g daily weight gain, 160g of mineral feed should be fed.
Thanks to this performance-oriented and needs-based feeding, the animal is optimally supplied during growth and at the same time, environmentally harmful nutrient surpluses are avoided.

For young cattle, Rimi is used with 10g mineral feed per kg dry matter intake.
- as of 250kg live weight: 70g Rimi
- as of 350kg live weight: 85g Rimi
- as of 450kg live weight: 100g Rimi

**Instructions for proper use:**
This complementary feed has a higher content of Vit. A, Vit. D3 and trace elements than complete feed, therefore it must be given only to fattening cattle and dairy cows in a quantity of 100-200 g and to yearlings/heifers 50-120 g per animal and day. Field of application for dairy cows and yearlings/heifers: 10 g mineral feed per kg DM-intake Field of application for fattening cattle: 100 g mineral feed per 1000 g daily weight gain: 120 – 160 g receiver, 160 – 200 g grower, 150 – 120 g finisher.

**Composition:**
calcium carbonate | sodium chloride | magnesium oxide | mono-calcium-phosphate | wheat bran | sugar beet molasses

**Analytical constituents:**

| | | | |
|---|---|---|---|
| 22.00 % | calcium | 1.50 % | phosphorus |
| 8.50 % | sodium | 5.00 % | magnesium |
| 14.7 : 1 | Ca/P = | | |

**Nutritional additives per 1 kg:**

| | |
|---|---|
| 400000 I.E. | vitamin A (3a672a) |
| 80000 I.E. | vitamin D3 (3a671) |
| 1000 mg | vitamin E/all-rac-alpha-tocopheryl acetate (3a700) |
| 200 mg | vitamin B1 (3a821) |
| 15 mg | vitamin B2 (3a825ii) |
| 13 mg | vitamin B6/ pyridoxine hydrochloride (3a831) |
| 240 mcg | vitamin B12 (3a835 / 3a836 / 3a837) |
| 120 mg | niacinamide (3a315) |
| 50 mg | calcium D-pantothenate (3a841) |
| 4 mg | folic acid (3a316) |
| 1000 mg | zinc (zinc chelate of glycine hydrate (solid)) (3b607) |
| 3000 mg | zinc (zinc oxide) (3b603) |
| 500 mg | manganese (manganese chelate of glycine hydrate) (3b506) |
| 1500 mg | manganese (manganese (II) oxide) (3b502) |
| 150 mg | copper (copper(II) chelate of glycine hydrate (solid)) (3b413) |
| 450 mg | copper (copper(II) sulphate pentahydrate) (3b405) |
| 75 mg | iodine (calcium iodate anhydrous) (3b202) |
| 18 mg | cobalt (coated granulated cobalt(II)carbonate) (3b304) |
| 10 mg | selenium (sodium selenite) (3b801) |
| 10 mg | selenium (sodium selenite)(SeProtect®) (3b801) |

**Note:** The best before date requires hygienic, cool, and dry storage. Josera does not take responsibility for incorrect storage nor improper use.
